TITLE Bibliography of Publications Relating to the Teaching of Science to Students with Disabilities.
INSTITUTION Science Association for Persons with Disabilities, Cedar Falls, IA.
PUB DATE Oct 94
NOTE 80p.; Updated by Janet Mansfield Davies.
PUB TYPE Reference Materials - Bibliographies (131)

EDRS PRICE MF01/PC04 Plus Postage.
DESCRIPTORS *Disabilities; Elementary Secondary Education; *Science Instruction

ABSTRACT

This document contains a bibliography of over 1,000 publications relating to the teaching of science to students with disabilities. Entries cover such topics as teaching the blind, the hearing-impaired, the educable-mentally retarded, and the autistic student. The areas in science education for students with disabilities include computer-assisted instruction, elementary science, mainstreaming handicapped students into science, counseling of the handicapped, urban and rural science education. Preface

This bibliography has been a continuing endeavor of the Science Association for Persons with Disabilities. The initial effort was undertaken by Dr. Ben Thompson, professor emeritus at the University of Wisconsin, Eau Claire. During his years of service as executive secretary of the association he continued to update the bibliography with selected members keeping abreast of publications in specific journals until he retired from the position in 1990. The update has been continued by subsequent presidents of the association, Dr. George Davis from Moorhead State University in Moorhead Minnesota, Dr. Greg Stefanich from the University of Northern Iowa in Cedar Falls Iowa, and lastly by Janet Mansfield Davies from Colorado Christian University in Lakewood, Coloarado.

SCIENCE ASSOCIATION FOR PERSONS WITH DISABILITIES

Bibliography
Updated September, 1994
